OUR NEEDS

- User-friendly mail server
- Strong anti-virus
- Good value for money
- Ease of use and of administration

Frédéric CHAUVAT
Technical director

The undisputed leader of e-business in France chose MDaemon!

>> What kind of product were you looking for?

“We wanted a user-friendly and easy to use mail server.”

>> Why did Cdiscount decide to implement MDaemon?

“We first tried the full-featured evaluation version for 30 days and were seduced by MDaemon’s functionalities and AntiVirus for MDaemon’s efficiency. Besides a good value for money, we found that the technical support was very reactive. So we decided to go for it!

We installed MDaemon and its anti-virus plug-in in 1999. When our team grew larger, MDaemon still answered our needs, thanks to a flexible licensing policy. Today, there are 450 accounts on our server. By updating our software every year, we can benefit from the new feature and tool developed by Alt-N.”
